~~—(2)(a) All qualifying projects for a UESWL service/unit pursuant to Section 3(1) of these standards shall be ranked from highest to lowest based on the percentage of the medical/surgical indigent volume at the licensed hospital site at which the proposed UESWL service/unit will be provided.~~

~~—(i) In the case of a proposed mobile UESWL service/unit, the medical/surgical indigent volume used for purposes of this subsection shall be the medical/surgical indigent volume for the host site on the proposed mobile service/unit that projected the largest number of UESWL procedures pursuant to the methodology set forth in Section 14.~~

~~—(ii) For purposes of this subsection, "indigent volume" means the ratio of a hospital's indigent charges to its total charges expressed as a percentage as determined by the Michigan Department of Community Health Medical Services Administration pursuant to Chapter VIII of the Medical Assistance Program Hospital Provider Manual. The indigent volume data being used for rates in effect on the date an application is submitted to the Department will be used by the Department in determining the ranking of each qualifying project.~~

~~—(b) All qualifying projects for a UESWL service/unit pursuant to Section 3(2) of these standards shall be ranked from highest to lowest based on the number of UESWL~~

procedures projected pursuant to the methodology set forth in Section 14 for all licensed hospital sites located in a region in which UESWL services are not provided, either by a fixed or mobile UESWL unit, as of the date an application is submitted to the Department. For purposes of this subsection, the applications submitted by the proposed host sites in the region in which UESWL services are not provided either by a fixed or mobile UESWL unit that will be served by the same central service coordinator will be considered as a single qualifying project.

—(3)(a) Each application in a comparative review group shall be reviewed individually to determine whether the application has satisfied all the requirements of Section 22225 of the Code, being Section 333.22225 of the Michigan Compiled Laws, and all other applicable requirements for approval in the Code and these standards.

—(b) If the Department determines that one or more of the competing applications under either Section 3(1) or 3(2) of these standards satisfies all of the requirements for approval, these projects shall be considered qualifying projects. The Department shall approve the qualifying project or projects in order of ranking from highest to lowest pursuant to the rankings determined pursuant to subsection (2)(a) or (2)(b), as applicable, and that, taken together, do not exceed the need as defined in Section 22225(1), being Section 333.22225(1) of the Michigan Compiled Laws.

—(c) If two or more qualifying projects are determined to have identical rankings under subsection (2)(a) or (2)(b), the Department shall approve the qualifying project or projects for either subsection (2)(a) or (2)(b), as applicable, that, taken together, do not exceed the need as defined in Section 22225(1) of the Code, being Section 333.22225(1) of the Michigan Compiled Laws, in the order in which the applications were received by the Department, based on the date and time stamp placed on the application of Certificate of Need form (form T-150-1.00 or any subsequent replacement form) by the Health Facilities Section (or the administrative unit of the Department responsible for administering the Certificate of Need program) when an application is submitted to the Department. For purposes of this subsection, in the case of a mobile UESWL service/unit proposed pursuant to Section 3(2), the date and time stamp placed on the central service coordinator's application shall be used.

Section 13. Additional requirements for applications included in comparative reviews

~~—Sec. 13 (1) Any application subject to comparative review under Section 22229 of the Code or these standards shall be grouped and reviewed with other applications in accordance with the Certificate of Need rules applicable to comparative reviews.~~

~~—(2)(a) All qualifying projects for a UESWL service/unit pursuant to Section 3(1) of these standards shall be ranked from highest to lowest based on the percentage of the medical/surgical indigent volume at the licensed hospital site at which the proposed UESWL service/unit will be provided.~~

~~—(i) In the case of a proposed mobile UESWL service/unit, the medical/surgical indigent volume used for purposes of this subsection shall be the medical/surgical indigent volume for the host site on the proposed mobile service/unit that projected the largest number of UESWL procedures pursuant to the methodology set forth in Section 14.~~

~~—(ii) For purposes of this subsection, “indigent volume” means the ratio of a hospital’s indigent charges to its total charges expressed as a percentage as determined by the Michigan Department of Community Health Medical Services Administration pursuant to Chapter VIII of the Medical Assistance Program Hospital Provider Manual. The indigent volume data being used for rates in effect on the date an application is submitted to the Department will be used by the Department in determining the ranking of each qualifying project.~~

~~—(b) All qualifying projects for a UESWL service/unit pursuant to Section 3(2) of these standards shall be ranked from highest to lowest based on the number of UESWL procedures projected pursuant to the methodology set forth in Section 14 for all licensed hospital sites located in a region in which UESWL services are not provided, either by a fixed or mobile UESWL unit, as of the date an application is submitted to the Department. For purposes of this subsection, the applications submitted by the proposed host sites in the region in which UESWL services are not provided either by a fixed or mobile UESWL unit that will be served by the same central service coordinator will be considered as a single qualifying project.~~

~~—(3)(a) Each application in a comparative review group shall be reviewed individually to determine whether the application has satisfied all the requirements of Section 22225 of the Code, being Section 333.22225 of the Michigan Compiled Laws, and all other applicable requirements for approval in the Code and these standards.~~

~~—(b) If the Department determines that one or more of the competing applications under either Section 3(1) or 3(2) of these standards satisfies all of the requirements for approval, these projects shall be considered qualifying projects. The Department shall approve the qualifying project or projects in order of ranking from highest to lowest pursuant to the rankings determined pursuant to subsection (2)(a) or (2)(b), as applicable, and that, taken together, do not exceed the need as defined in Section 22225(1), being Section 333.22225(1) of the Michigan Compiled Laws.~~

~~—(c) If two or more qualifying projects are determined to have identical rankings under subsection (2)(a) or (2)(b), the Department shall approve the qualifying project or~~

1664 ~~projects for either subsection (2)(a) or (2)(b), as applicable, that, taken together, do not~~
1665 ~~exceed the need as defined in Section 22225(1) of the Code, being Section~~
1666 ~~333.22225(1) of the Michigan Compiled Laws, in the order in which the applications~~
1667 ~~were received by the Department, based on the date and time stamp placed on the~~
1668 ~~application of Certificate of Need form (form T-150-1.00 or any subsequent replacement~~
1669 ~~form) by the Health Facilities Section (or the administrative unit of the Department~~
1670 ~~responsible for administering the Certificate of Need program) when an application is~~
1671 ~~submitted to the Department. For purposes of this subsection, in the case of a mobile~~
1672 ~~UESWL service/unit proposed pursuant to Section 3(2), the date and time stamp placed~~
1673 ~~on the central service coordinator's application shall be used.~~

1674
1675 ~~——(4) A qualifying project shall not be ranked under specific subsections of Section~~
1676 ~~13 if information presented in Section 13 is inconsistent with related information~~
1677 ~~provided in other portions of the Certificate of Need application.~~

1678 **Section 1413. Methodology for projecting UESWL procedures**

1679
1680 Sec. 1413. (1) The methodology set forth in this subsection shall be used for
1681 projecting the number of UESWL procedures at a site or sites that do not provide
1682 UESWL services as of the date an application is submitted to the Department. In
1683 applying the methodology, actual inpatient discharge data, as specified in the most
1684 recent Michigan Inpatient Database available to the Department on the date an
1685 application is deemed complete shall be used for each licensed hospital site for which a
1686 signed data commitment form has been provided to the Department in accordance with
1687 the provisions of Section 1514. In applying inpatient discharge data in the methodology,
1688 each inpatient record shall be used only once and the following steps shall be taken in
1689 sequence:

1690 (a) The number of inpatient records with a diagnosis, either principal or nonprincipal,
1691 of ICD-9-CM codes 592.0, 592.1, or 592.9 shall be counted.

1692 (b) The result of subsection (a) shall be multiplied by the factor specified in Appendix
1693 ~~B-A~~ for each licensed hospital site that is committing its inpatient discharge data to a
1694 ~~Certificate of Need~~CON application. If more than one licensed hospital site is
1695 committing inpatient discharge data in support of a ~~Certificate of Need~~CON application,
1696 the products from the application of the methodology for each licensed hospital site
1697 shall be summed.

1698 (c) The result of subsection (b) is the total number of projected UESWL procedures
1699 for an application that is proposing to provide fixed or mobile UESWL services at a site,
1700 or sites in the case of a mobile service/unit, that does not provide UESWL service,
1701 either fixed or mobile, as of the date an application is submitted to the Department.

1702
1703 (2) For a site or sites that provide UESWL services as of the date an application is
1704 submitted to the Department, the actual number of UESWL procedures performed at
1705 each site, during the most recent continuous 12-month period for which the Department
1706 has verifiable data, shall be the number used to project the number of UESWL
1707 procedures that will be performed at that site or sites.

1708
1709 (3) For a proposed UESWL ~~service~~/unit, the results of subsections (1) and (2), as
1710 applicable, shall be summed and the result is the projected number of UESWL
1711 procedures for the proposed UESWL unit for purposes of the applicable sections of
1712 these standards.

1713
1714 (4) An applicant that is projecting UESWL procedures pursuant to subsection (1)
1715 shall provide access to verifiable hospital-specific data and documentation using a
1716 format prescribed by the Department.

1717
1718 **Section 1514. Requirements for MIDB data commitments**

1719
1720 Sec. 1514. (1) In order to use MIDB data in support of an application for UESWL
1721 services, an applicant shall demonstrate or agree to, as applicable, all of the following.

1722 (a) A licensed hospital site whose MIDB data is used in support of a ~~Certificate of~~
1723 ~~Need~~CON application for a UESWL service/unit shall not use any of its MIDB data in

support of any other application for a UESWL service/unit for 5 years following the date the UESWL service/unit to which the MIDB data are committed begins to operate. The licensed hospital site shall be required to commit 100% of its inpatient discharge data to a Certificate of Need application.

~~(b) A licensed hospital site that is proposing to commit MIDB data is located in a region that, as of the date an application is submitted to the Department, has 3 or fewer sites, either fixed or mobile host sites, that provide UESWL services.~~

(eB) The licensed hospital site, or sites, committing MIDB data to a Certificate of Need application has completed the departmental form(s) that agrees to or authorizes each of the following:

(i) The Michigan Health and Hospital Association may verify the MIDB data for the Department.

(ii) An applicant shall pay all charges associated with verifying the MIDB data.

(iii) The commitment of the MIDB data remains in effect for the period of time specified in subdivision (1)(a).

(eC) A licensed hospital site that is proposing to commit MIDB data to an application is admitting

patients regularly as of the date the director makes the final decision on that application under Section 22231(9) of the Code, being Section 333.22231(9) of the Michigan Compiled Laws.

(2) The Department shall consider an MIDB data commitment in support of an application for a UESWL service/unit from a licensed hospital site that meets all of the following:

(a) The licensed hospital site proposing to commit MIDB data to an application does not provide, or does not have a valid [Certificate of NeedCON](#) to provide, UESWL services, either fixed or mobile, as of the date an application is submitted to the Department.

(b) The licensed hospital site proposing to commit MIDB data is located in a region in which a proposed fixed UESWL service/unit is proposed to be located or, in the case of a mobile unit, has at least one host site proposed in that region.

(c) The licensed hospital site meets the requirements of subsection (1), as applicable.

Section 1615. Effect on prior planning policies; comparative reviews

Sec. 1615. (1) These [Certificate of NeedCON](#) review standards supersede and replace the [Certificate of NeedCON](#) review standards for urinary extracorporeal shock wave lithotripsy (UESWL) services/units approved by the [Certificate of NeedCON](#) Commission on ~~March 13, 1998~~[SEPTEMBER 21, 2001](#) and effective on ~~May 2, 1998~~[NOVEMBER 26, 2001](#).

(2) Projects reviewed under ~~Section 3(1) of these standards for a UESWL service/unit shall be considered one distinct category and shall be subject to comparative review.~~

~~—(3)—Projects for a mobile UESWL service/unit reviewed under Section 3(2) of these standards shall be considered one distinct category and shall be subject to comparative review.~~

~~—(4)—Projects reviewed under these standards for acquisition, acquisition and relocation, relocation, renewal of a lease, or replacement/upgrade of a UESWL unit shall not be subject to comparative review.~~

Factor For Calculating Projected UESWL Procedures

(1) Until changed by the Department, the factor to be used in Section ~~1413~~(1)(b) used for calculating the projected number of UESWL procedures shall be 0.~~721~~805.

(2) The Department may amend Appendix ~~B~~A by revising the factor in subsection (1) in accordance with the following steps:

(a) Determine the total statewide number of inpatient records with a diagnosis, either principal or nonprincipal, of ICD-9-CM codes 592.0, 592.1, or 592.9 for the most recent year for which Michigan Inpatient Database information is available to the Department.

(b) Determine the total number of UESWL procedures performed in the state using the Department's Annual Hospital Questionnaire for the same year as the MIDB being used in subsection (a).

(c) Divide the number of UESWL procedures determined in subsection (b) by the number of inpatient records determined in subsection (a). The result is the revised factor for calculating UESWL procedures.

(3) The Department shall notify the Commission when this revision is made and the effective date of the revision.
